Spinning Coaster

In K.C.: Worlds of Fun's Spinning Dragons takes nerves, strong stomach.

Spinning Dragons

Where: Worlds of Fun, Kansas City, Kan.

What: A roller coaster with cars that spin in circles while traveling the track

Top speed: 30 mph
Duration: 1 minute, 30 seconds

Thrill factor: Hold on to your lunch. This is a roller coaster that seems designed to cause motion sickness. Each coaster car carries two pairs of passengers who face each other. As they travel down the 1,345-foot track, the cars spin in unpredictable ways depending on the centrifugal forces of the ride. The result: No two rides are the same.

Information: 816-454-4545; worldsoffun.com

Worlds of Fun

Dragons players: Two pairs of passengers spin unpredictably through hairpin turns and plummeting spirals.
